## DETAILED ACTION

### ***Claim Rejections - 35 USC § 112***

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claim 1-5 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claims 1-5 recite the phrase, "A building configuration introduced in a surgical-use screw." Firstly, it is unclear what a building configuration is. Secondly, the "building configuration" is not meant to be introduced within a screw.

Claim 3, line 5, recites, "preferably with a sixangled configuration." It is unclear whether or not the limitation requires the sixangled configuration.
